AYA EXPERIENCE:

AYA is a full service firm providing architectural, engineering, interior design, and landscape architecture. We have experience in a broad range of project types. Our collective experience base helps us provide comprehensive services for any and all sizes and types of projects.

OUR MISSION:

Communicate with clients to understand their needs and goals, and translate into quality solutions through responsive building design. This assures that the client’s goals and design intent are achieved.

LISTEN • UNDERSTAND • COMMunicate

OUR COMMITMENT TO YOU:

Responsive: Active project management to ensure project schedule and budget are met.

Experienced: All AYA staff is determined to stay knowledgeable and up to date as our industry evolves.

Dependable: Our approach to project design development balances design, quality and budget to meet your needs.

SINCE 1956
MULTIDISCIPLINARY

Our multidisciplinary services provide us with access to a broad range of resources and experience, giving us the ability to accommodate tight budgets within demanding schedules for any scale or type of project. Our comprehensive services have provided us with advanced knowledge and experience in each discipline while working with in-house teams. We believe that innovative, yet functional design solutions can be achieved within the limits of any budget, schedule, or criteria.

ARCHITECTURAL DESIGN:
- Site Selection Analysis; Programming; Master Planning; Phased Development; Building Design including New, Additions, and Renovations; Concept development using 3D models and renderings; and BIM services.

STRUCTURAL DESIGN:
- Design of all types of structural systems.

MECHANICAL DESIGN:
- Heating, Ventilation, Air-conditioning Systems; Controls; Piping Systems; Process; Indoor Air Quality; Boiler Replacements; Chiller Replacements; and system evaluations and upgrades.

ELECTRICAL DESIGN:
- Power Systems; Alarm Systems; Lighting Systems; Computer Networking; and, Communication Systems.

PLUMBING DESIGN:
- Design of a variety of plumbing systems including specialty-plumbing systems for many types of commercial, industrial, medical, educational, and residential facilities.

INTERIOR DESIGN:
- Furniture and Equipment Selection and Specification; Space Planning; Color Selection; Material Selection; Window Treatments and Signage.

SITE AND LANDSCAPE DESIGN:
- Site design; Landscape Design; Storm Water Management Plans, and storm water quality system design. Coupled with our engineers, we also provide site utility and site lighting design.

UNDERSTANDING THAT EVERY PROJECT HAS DIFFERENT NEEDS;

We offer our services in an a la carte format. As a full service architectural, engineering, interiors and landscape design firm, you may select any or all of the professional disciplines the project may need. We have also customized service packages to provide in phases, or parts, services for your particular needs.
At AYA, we have knowledgeable and creative sustainable designers in each and every discipline. As well as multiple LEED Accredited Professionals on staff. We can provide a full range of services for LEED projects and sustainable design solutions. However, even when not working on a LEED Building, we believe that green and sustainable practices should always be acknowledged and widely used when possible.
